Benetech Launches New Website – [benetechadvantage.com](http://www.benetechadvantage.com)

The new and completely redesigned website offers employers an in-depth view of Benetech’s end-to-end array of services

North Greenbush, NY, April 4, 2014 - Benetech is pleased to announce the launch of their new website www.benetechadvantage.com. This launch is in conjunction with the launch of several new solutions Benetech is offering to employers - a new Affordable Care Act compliance solution, ACAtrac©, and a new workforce management solution, eWorkforz©.

Benetech’s website is designed to offer employers quick and easy access to Benetech’s innovative “One Source. One Solution” approach to employee benefits, workforce management, and compliance and auditing services.

“We are certainly excited about the new website,” commented Benetech CEO, John Panichi. “We’ve developed a unique array of services that manage employees and their benefits from recruitment to retirement and all the stages in between. We needed a modern, responsive website that would really reflect the new Benetech while providing an informative experience to the visitors of our site. We’re approaching our 30th business anniversary, and we are launching our new ACAtrac© compliance solution, eWorkforz© workforce management solution, and our second release of our eBenefits Resource™ eligibility management solution. It seemed like a great time to launch a new website to recognize all of these milestones.”

The launch of the new website offers additional features and resources for employers including informational whitepapers, webinars, and a blog that will cover current topics regarding the challenges employers face in managing their employees and their benefits.
